WEBER-HYDRAULIK

Measurement parameters and standards

Valid for WEBER-HYDRAULIK ValveTech valves

110610_measurement_standard
07/2018

Measurement and test conditions

- Unless otherwise specified, all measurements are performed using mineral hydraulic oil in accordance with DIN 51524, type HLP 32 or HLVP 32
- Oil temperature 40°C ± 3°C
- Viscosity 32 cSt
- Purity class (DIN EN ISO 4406) 16/14/11 or better

Applied standards

- Hydraulic fluid power: DIN EN ISO 4413
- Hydraulic fluids: DIN 51524
- Filtration: ISO 4406
- Protection classes (IP...): EN 60529
